LINDSEY OLSON

• Developer •

EXPERIENCE

2020 **MassMutual**
Developer - Contract
• Refactored code, improved layout of the Accounts sections on dozens of pages.
• Increased code readability through the increasing of comments, jQuery, and refined layout and organization.
• Visually and functionally tested code, found and fixed bugs, and updated code accordingly.
• Continued implementation of the new design standards of Version 2.0.
• Assisted in the training of three new developers for Agile practices as well as coding standards by coordinating with managers and other members of the team.

2020 **MassMutual**
Web Developer Intern
• Designed, implemented, and deployed new updates for the Accounts team, used HTML, CSS, React, JavaScript, jQuery, and Docker in an agile team of fifteen people.
• Reskinned the Accounts sections of the MassMutual.com website to fit the new design standards and ensured an overall more user friendly experience - changed over 100 files, increasing Aria utilization by 50%.
• Coordinated with members in and out of the team, across the company, in order to ensure the highest quality product possible.
• Ensured everything is correct for the more than 1.5 million users that are on the website.

PROJECTS

2021 **Ponaganset Education Foundation**
• Make use of PHP, Javascript, jQuery, and plugins in order to create a clean and easily accessible website.
• Work with and communicate with members of the Board in order to provide a high quality product that follows all requirements and do so in a timely manner.
• Include forms for events as well as detailed information about each event, allowing for potentially hundreds or more donations.
• Meet with and coordinate with several members of the board to discuss requirements and goals.

2021 **Personal Portfolio - Andrew Mendizabal**
• Design, build, and deploy a unique, aesthetically pleasing personal portfolio website for client in order to help them land interviews and ultimately a career.
• Use Javascript, plugins, jQuery, and more in order to provide the best possible product for the client.
• Recieve and implement feedback from design stage all the way through the finalized product.
